

Project: Innocent Smoothies London HQ

WFA is extremely proud to have sourced and provided the wood flooring for the famous Innocent Smoothies brand.

Voted one of the coolest office spaces in London, at "Fruit Towers" sustainability is high on the agenda. Sourcing 100% FSC certified materials was vital for a business which has shown a pioneering depth of commitment to the environment since 2003.

We worked closely with the architect and their client to produce European Oak Rustic engineered planks. The client then chose a tumbled and distressed look, with a smoked and oiled finish. Perfect for a working space with such high foot traffic.

Product: 100% FSC Stability Engineered European Oak Rustic
